

# 2016 Project Scope

This year, Maranatha will be working in 10 countries, providing churches, schools, and water wells to those who need it most. Now, we need **YOU** to help answer these prayers!

**USA**  
17 Projects

**CUBA**  
1 Church

**DOMINICAN  
REPUBLIC**  
Churches

**PANAMA**  
Churches

**URUGUAY**  
1 School

**BRAZIL**  
200 One-Day Churches

**ANGOLA**  
55 One-Day Churches  
200 One-Day School  
classrooms  
1 Education and  
Evangelism Center

**ZIMBABWE**  
75 One-Day Churches  
12 One-Day School classrooms  
Wells

**KENYA**  
75 Churches  
12 Classrooms

**INDIA**  
30 Churches  
25 One-Day School  
classrooms  
Additional Projects

# What We're BUILDING

## One-Day Church

This program has been critical in responding to the requests for churches in the most isolated parts of the world, where traditional construction would be extremely difficult. Yet One-Day Churches can fill the need by providing a steel frame and roof. Then, church members build the walls with local materials. The cost of a One-Day Church is \$4,500. You can also sponsor a share for \$1,500.

## Churches

Currently, Maranatha builds fully blocked churches in several of the countries where we are working. These sanctuaries have a steel frame and roof, cement foundation, walls, windows, doors, and platform. Some models even have bathrooms and Sabbath School classrooms. These churches range in cost from \$20,000 to \$75,000, depending on the size and country.

## One-Day School

Education is a tremendous need in the developing world, yet schools are very expensive to construct. The One-Day School is an effective and relatively affordable solution. A kit comes with a steel roof and walls, windows, doors, and desks. For \$15,000, you can sponsor a One-Day School classroom. You can also sponsor a share for \$5,000.

## Schools

Maranatha's largest structure is a school called the Education and Evangelism Center (EEC). It is a block construction building, featuring a long open space in the middle with classrooms, restrooms, and offices flanking both sides. The center space can be used as a gymnasium and an auditorium. The EEC can have six to twelve classrooms, with room for 40 students per room. Cost for this building can range from \$500,000-\$800,000.

## Wells

Water is a critical need in several of the countries where Maranatha is working. Millions of people have little to no access to clean water, and they are suffering as a result. This year, Maranatha is focused on providing water wells in Zimbabwe and Kenya. The cost of a water well depends on the country. In Zimbabwe, sponsorship starts at \$10,000. Call to learn more.
