

A fun and easy way for kids to learn about missions.

Welcome to Maranatha Kids!

In this week's video, we learn how some church members around the world worship and how Maranatha is helping. Use the provided questions below to help your children think more deeply about their world, the mission field, and God.

Feel free to tailor any aspect of this program to meet the needs of your kids. The discussion questions can get your family talking, but be ready to go deeper on any topic if you sense the time is right.

### **Pre-Video Discussion Questions**

- Right now, there isn't a lot of traveling going on because of the coronavirus, but let's imagine you can go anywhere in the world. Which country would you like to visit the most, and why?
- You may not have been to your church for the past couple of Sabbaths. Do you remember what it looks like? Describe the materials used, how tall it is, what the floor is covered with, the type of seat or pew you sit in, etc.

### **Post-Video Discussion Questions**

- What types of things does Maranatha build?
- How does your church look different from some of the places people were worshipping at the beginning of the video?
- When Maranatha volunteers serve people, how do you think these people feel?
- How do you think Maranatha volunteers feel while serving people on a mission trip?

### **Prayer Points**

- All of the doctors, nurses, and others who are helping take care of sick people right now.
- All of the 18 million Seventh-day Adventists around the world who may not be able to gather together this Sabbath because of the coronavirus.
- Church members who can worship together this Sabbath, but without a proper church (maybe under a tree, a leaky shed, or in someone's dark house).

### **Maranatha Facts**

- Maranatha has worked in 88 countries over fifty years of service.
- Maranatha currently constructs churches, schools, and water wells.
