

A fun and easy way for kids to learn about missions.

Hello Parents,

Today, we'll explore an overlooked tool in the mission of Maranatha: our trucks! Besides pick-up trucks that transport Maranatha staff through the wilderness on rough roads around the world, we have water well drilling rigs and construction trucks that carry all of the materials needed to construct churches and schools.

We hope your kids enjoy this video on the unsung heroes of many Maranatha projects!

Pre-video Discussion Questions

- What tools do you use to help build things at your house?
- How is a car or truck like a tool? If your family has one, what is it used for?

VIDEO

In today's video, see what kinds of trucks Maranatha uses, and how each one plays a special role in carrying out the mission.

Post-video Discussion Questions

- What is your favorite type of Maranatha truck?
- What are the most important things a Maranatha truck helps to do?
- Can you think of any important tools or animals God used in the Bible?

Prayer Points

- Pray for our trucks! Sometimes Maranatha's trucks break down and need to be fixed, but it can be hard to get the right parts. Pray that the trucks will run well and if there is a repair needed, that it can be done quickly.
- Ask kids what they would add to the prayer list.

Did You Know?

- In some countries, Maranatha has operated its own drilling rig, while in other countries it is better to hire other companies to do the drilling.
