

A fun and easy way for kids to learn about missions.

Hello Parents,

This week, meet a man from California who supports missions through an unlikely source: honey bees! Maranatha donor Norm Cary is one of the largest producers of honey in the United States with more than 900 million bees on his farm. In today's video, we'll see how bees make honey and how Norm prepares it to be sold. Your kids will also learn that no matter what someone loves to do, it can help to push the mission forward.

### Pre-video Discussion Questions

- What do you love doing so much, you would do it as a job?

## VIDEO

In today's video, see how honey bees in California are helping to build classrooms in India.

### Post-video Discussion Questions

- Why can someone help missions no matter what they love to do?
- In the Bible, Paul spent many years on mission trips to tell others about Jesus. But he needed money for food and to pay for his journeys to different cities. One of the ways he earned money for his missions was to make tents. If you were like Paul today, what would you do to earn money for mission trips?
- Would you rather go on a mission trip or donate money to help? Which helps the most?

### Prayer Points

- That we would discover ways we can support missions.
- Ask kids what they would add to the prayer list.

### Did You Know?

- A place where bees are kept is called an apiary, and the beekeeper is known as an apiarist.
- There are more than 20,000 species of wild bees.
